

JOB OPENINGS - BREAST CANCER GROUP, IIS Biodonostia

Our group is based at the **Biodonostia Health Research Institute, San Sebastian, Spain**. It is integrated within the structure of Donostia University Hospital-Onkologikoa, the main node for cancer patients in the region. Ours is a **multidisciplinary group** formed by basic researchers, medical oncologists, pathologists and surgeons. Our research is focused on the molecular mechanisms mediating **breast cancer metastasis**, with a particular emphasis on the role of inflammation in the **tumour microenvironment**. Our aims are to identify new prognostic and predictive markers, and to design new therapeutic strategies to target tumour progression. To address these aims, we use a combination of complementary research approaches: relevant pre-clinical in vivo models, cell culture experiments, bioinformatics and analysis of clinical samples.

TECHNICIAN / LAB MANAGER: 1-year position, renewable

Requirements: <ul style="list-style-type: none">• Degree in Biological/Biomedical Sciences• Research experience in cell biology, animal models and molecular biology techniques• Expertise in laboratory organization and admin duties	Duties: <ul style="list-style-type: none">• Daily organization of the laboratory• Management of mice colonies• Training students• Ordering supplies and bookkeeping of lab expenses
---	---

POSTDOCTORAL RESEARCHER: 1-year position, renewable depending on availability of funds

Project: **Role of pro-inflammatory cytokines in breast cancer metastasis and resistance to immunotherapy**

Requirements: <ul style="list-style-type: none">• PhD in Biological/Biomedical Sciences• Background in cancer biology and/or immunology (as demonstrated by first author publications)• Expertise in animal models, cell culture and flow cytometry• Team player and motivated	Duties: <ul style="list-style-type: none">• Leadership of the research project• Supervision of undergraduate and graduate students• Submitting applications to postdoctoral calls (e.g. Juan de la cierva, AECC, Sara Borrell)• Collaborating with other projects of the lab
--	--

Those interested in these positions, please submit a single pdf document to maria.caffarel@biodonostia.org containing: cover letter, CV, and 3 references (no letters are needed at this point).

Deadline to apply: **December 18th**. For more info about the group please check:
